Waterlog (wɔ̄·təlɒg), *v.* [app. f. Water *sb.* + Log *v.*]

Cf. Log *v.*[1] 3 a, where the only example cited is:—1751 Smollett *Per. Pic.* lxxvi, Several feet of under-water logging in her hold. In this passage ugh *c.* editors have altered *logging* into *lodging*; this is doubtless wrong, but the sense of 'logging' is somewhat obscure. The likeliest view seems to be that it is an absolute use of the active sense, 'to reduce (a ship) to the condition of a log': cf. quot. 1622 under Log *sb.*[1] 2, 'Having lost all her masties, and being no other than a logge in the sea'.

The finite verb is not recognized in previous Eng. dictionaries, which give only *waterlogged* ppl. adj.]

1. *trans.* To render (a ship, etc.) unmanageable by flooding with water: see Waterlogged *ppl. a.*

So G. *wassermarke* (1781); the more common word is now *wasserzeichen* (*zeichen* sign). The name was prob. given because the water-mark, being less opaque than the rest of the paper, had the appearance of having been produced by the action of water.

Water-measure. A kind of measurement formerly used for coal, salt, fruit, etc., sold on board vessels in port or in the river.

¶ 2 In Ps xlii 7 (Bible version) the word is now commonly apprehended as an example of sense 3 below. It was, however, probably intended as metaphorical use of sense 1, and it seems likely that the meteorological sense 3 arose from recollection of the passage of the psalm

The Heb word *tsinnor*, here rendered by waterspout', occurs elsewhere only in 2 Sam v 8, where it has been interpreted 'spout or gutter on a roof'; Vulg *domorum fistulas* (Wyclif 1382 'the goters of the hows eues,' Douay 'the gutters of the house tops') the Bible of 1611 has 'the gutter,' and the Revision 1881 'the water course'. In the psalm the word is rendered in the I XX by καταρράκται and in the Vulg by *cataracta* (Wyclif 'cataractis,' Douay 'flouds'), the most translators of which on the Heb. essayed to find a literal rendering in accordance with the apparent sense of the word in 2 Sam v 8, han e Paginus has *fistularum* (whence Coverdale by misapprehension renders 'whistles'), the Great Bible (1539) has 'water pipes'

Watling-street (wɒ·tlŋstrēt). Forms: 1 **Wæolinga-, Wæxling(g)a-, Wætlinga-, Wætlinga-strét**, 2 **Watlingestrate**, 3 **Watelinge stret**, 4 **Wat(e)lynge-**, 5 **Watlyn-**, 5 **Wadlyng-, Watelyngc-**, 6 **Wadlang-**, 6 **Wailyng-**, 6- **Watling-**. [OE. *Wæclinga stræt*; the first word, app. the genit. pl. of the name of a (real or imaginary) family or clan, occurs also in *Wæclinga ceaster* ('the Waclings' city'), the OE. name of the Roman-British Verulamium (now St. Albans), through which the ' Watling-street ' passes.

The forms with *tt* for *cl*, which have been universal from the 12th c, are all but non-existent in MSS. of pre-Conquest date; a solitary example is *Wætlinga ceastre* in *OE. Martyrology, St. Alban*, 22 June (MS. Cott. Julius A. x. fol. 112, written *c* 979). The change of *cl* into *tt* in *Wætlingas* was hardly be due to the close resemblance of *c* and *t* in OE. script (though many instances of the latter form in modern editions of OE. texts are mistorical misreadings), because the existence of sense 2 seems to show that the name of the Roman road was preserved in popular and not merely literary tradition. Perhaps the word may have been assimilated to the *Wattlings* which occurs in the place-name Wattlington (Oxon and Norf.).

The Waclings may have been either an actual family that had obtained possession of the old Verulamium, or a dynastic family celebrated in Mercian tradition, to whom, as typifying remote antiquity, the road and the city were attributed by popular fancy. It has been suggested that *Wæclinga ceastre* is a corruption of *Werlamu ceaster*, an alternative OE. name of Verulamium (*Wæclingaceastir sive Verlamaceastir*, Beda *H. E.* v. xxiii, 1722), but the Old British name in a later form i but the conjecture is untenable.]

1. The English name given in pre-Conquest times to the Roman road running from near London through St. Albans to Wroxeter; by antiquarian writers from the 12th c. onwards extended to Roman roads leading from London to the S.E. and from Wroxeter to the north or west.

The places mentioned in OE. charters as situated on or near the ' Waeclinga-strát ' are : Hampstead ; Chalgrave (Beds.); Stowe (Bucks.); Weedon (Northants); Aston (close to Wroxeter) : see Birch *Cartul. Sax.* Nos. 1300, 699, 786, 798, 1315. According to Henry of Huntingdon (*died* 1154) the Watling-street extended from Canterbury to Chester ; according to Robert of Gloucester (*c* 1290) from Dover to Chester; according to Higden (*c* 1340) from Dover to Wroxeter and thence to Cardigan. Modern writers usually assign Dover or Richborough as the eastern terminal point, but some apply the name Watling-street to the road running northwards from Wroxeter through Lancashire.

Watt (wɒt). *Physics.* [f. name of James *Watt* (1736–1819), the inventor of the modern steam-engine, and a pioneer in the science of energy.] A unit of activity or power (used chiefly with reference to electricity), corresponding to 10⁷ ergs of work per second, to the rate of work represented by a current of one ampere acting under the pressure of one volt, or to 7·4 (·· 0·014) English horse-power.

1882 Siemens in *Rep. Brit. Assoc.*, Presid. Addr. 6 The other unit I would suggest adding to the list is that of power. The power conveyed by a current of an Ampère through the difference of potential of a Volt is a unit convenient with the practical system. It might be appropriately called a Watt, in honour of.. James Watt.. A Watt, then, expresses the rate of work represented by 1 Volt, while 1 horse-power is 746 Watts, and a Cheval de Vapeur 735. 1882 *Athenæum* 9 Sept. 310/3 Two of his [Dr. Siemens's] units were introduced, the ampère-volt, (1) the watt, which is the rate of doing work when a current of one ampere passes through a resistance of one ohm, (etc.). 1886 Thurston in *Trans. Franklin Inst.* Oct. 253 It was judged that 1 watt would have been driven up to 300,000 watts with safety. 1887 *Rep. Brit. Outside Teut. the word occurs as Lith. ***vaškas***, OSl. ***vosŭ*** (Russ. ВОСКЪ, Pol. ***wosk***, Czech ***vosk***), but prob. adopted from Teut. The root may be identical with Teut. ****wahs*** to grow (WAX[2]), it seems not impossible that the etymological sense may have been 'that which grows (on the honeycomb)'. The vowel-grade in Teut. favour refers the word to the Ind.-germanic root ****uek-*** to weave, found in Olr. ***fiaim*** I weave, *L.* ***vellum*** veil, sail (believed to be from pre-historic ****vegelīom***), and in certain Teut. words (see WICK[1]) the idea-series of this etymology appeal to the apparent semiological parallel of *G.* ***wabe***, honeycomb, presumed to be from the root of *G.* ***weben*** WEAVE[1]. Some other hypotheses have been proposed: but they are all unsatisfactory with regard either to form or meaning.]

1 A substance (also distinctively called BEE-WAX) produced by bees, and used by them as the material of the honeycomb. It is a secretion of special glands in the abdomen, mixed with the secretion of the salivary glands in the process of mastication, when slightly warmed it is readily moulded into any shape, and when heated to about 150° melts into a liquid, in its natural state it is of a bright yellow colour ***Butter of wax*** see BUTTER *sb.*[1] 3. *Cf* ***wax butter*** in 12.

The OTeut. conjugation of the verb is retained in Goth., OHG., OS., and O.N.) in OE. it is confined to the Northumbrian dialect (pa. t. *wóx*) the WS. pa. t. *wéox* and the Du. *w* are due to the analogy of the reduplicating verbs.

The strong pa. t. became rare after the 14th c., and is now wholly obsolete ; the one or two examples in the poetry of the 15-16th c. are deliberately archaistic. For the pa. pple. the Bible of 1611 has *waxed* four times and *waxen* eight times ; in recent use *waxen* is not infrequent when the verb is conjugated with *to be*, but is otherwise very rare.

Originally a more frequent synonym of Grow *v.*, which has now superseded it in general colloquial use, exc. with reference to the moon (see 6). With this exception, the senses below which are not marked as obsolete are confined to literary use, and have, in varying degrees, a somewhat archaic flavour ; some of those under branch I survive only in the traditional antithesis with Wane *v.* The verb is said still to be current in certain dialects : see *Eng. Dial. Dict.*

In several writers of the 16th c. (chiefly poetical) the forms WAXEN, WEXEN occur for WAX *v.*1, but only in those parts of the verb (inf. and pa. pples. pl. present) in which these were in Mdl. the normal inflected forms of WAX. Thus in my some times be due to intentional grammatical archaism, but when these forms are used by writers whose grammar is in all other respects normal, it seems probable that the inflexional *waxen* in quotations from older writers was mistaken for a verb synonymous but not identical with WAX. It has been thought desirable to give here all the examples in our material, in order that their individual significance may be judged of by comparison The 17th c. quots from H. More, which are added for completeness, are of course intentionally archaistic

b Qualified by poss pron, the word often occurs as object or as adverbial accusative to the verb *go* (see Go v 21 b) and its synonyms, *ride*, *steer* (see Lead v 1, Steer v), *wend*, etc. From an early period *my, his* (etc.) were in these collocations were often merely equivalent to 'away', and with this weakened sense they were formerly used with other verbs of motion, as *flee* (see Flee v 1 d), *run* (see Run v 34), *come, pass, ride* In present literary use *to go, wend one's way* survive as archaisms; mod dialects have only the imperatives *go, come your (thy) way* (or *ways* see 23 b).

Way, obs form of WEIGH *v.*, WEY, WHEY, WOE.

-way (*wēi*), as a terminal element of advs, is identical with WAY *sb.*[1]

1 Phrases consisting of the sb. qualified by an adj. are often used adverbially (see WAY *sb.*[1] 8, 14 d, etc.), and some of the combinations of adj and sb. thus used have come to be apprehended as single words, and so pronounced and written; the second element, losing its separate stress, has assumed in some degree the aspect of an adverbial suffix. The only early example of this process is the OE. *ealne weg*, an adverbial accusative, which after the disappearance (in the 14th c.) of adjectival flexion became ALWAY (q. v. for the development of meaning). *Anyway, everyway, noway, someway*, written as single words, are not found before the 16th c. The only advs in *-way* f. descriptive adjs. are *broadway* (16th c.), *crossway* (early 17th c.), *straightway* (as two words in 15th c.; as one word from 1530). Most of the above-mentioned advs. have parallel and synonymous forms in -WARD.

2. The few advs f. sb. + *-way* do not originate from phrases, but are genuine compounds; they all have parallel forms in -WARD. †*Needway* 'necessarily' occurs in Barbour *c* 1375 (*needways* in *Curs. M. a* 1300). *Edgeway, endway, sideway, sunway*, which denote direction of movement, are, like the corresponding forms in -WARD, not older than the 16th century.

3. *Crossway* and *sideway* are frequently used as adjs.; the other advs in *-way* expressing spatial direction would perhaps admit of a similar use, but it is not evidenced in our quotations.

1893 *Times* 10 Sept 5/6 This system, which became known as the 'waybill' system, was worked in this way. Wayrynggle, variant of Wrianglde *Obs*

-ways, the terminal element of certain advs, was originally a use of the genitive of Way.

1. Many phrases consisting of the genitive of *way* (in various senses) qualified by an adj, were formerly used adverbially (see Way *sb* 1 23 a). The earliest known examples are in the Peterborough Chronicle (first hand, A D. 1124) which twice has *dores weges* in the sense 'by another route', in this phrase the adj appears uninflected before the end of the 12th c (see Otherwaies). Similarly *alles wes, manes (monnes)* ways occur early in the 13th c, becoming *alnways, manyes* in the 14th c. On the analogy of these words were subsequently formed *everyways* (1398), *anyways*, + *likeways* (16th c.) and (from descriptive adjs) *crossways, longways, straightways* (16th c.), *broadways* (18th c

2 A solitary instance of an adv f sb + *-ways* before the 16th c is † *meadeways* ' necessarily ', occurring in the *Cursor M* (*a* 1300) and in Barbour In the later formations the general sense is a specified direction ', so *countryes, lengthways, sideways* (16th c), *edgeways, breadthways* (17th c), *sternways* (19th c), *sunways*

3. As there is no perceptible difference of function between the adverbial genitive and the adverbial accusative, most of the advs. in *-ways* have synonyms in *-wys*. Further, most of the advs. in

-ways are synonymous with actual or possible parallel formations in *-wise*; and the similarity of sound of the two suffixes has given rise to the notion that they are mere alternative forms of one and the same ending. Johnson's erroneous statement (s. v. *Way*) that '*way* and *ways* are often used corruptly for *-wise*' has probably led many to prefer *-wise* to *-ways* or *-way* on the ground of supposed correctness. Cf. *alway, always,* †*alwise* ; *anyway, anyways, anywise* ; *breadthways, -wise* ; *broadway, -ways, -wise* ; *crossway, -ways, -wise* ; *edgeway, -ways, -wise* ; *endway, -ways* ; *everyway,* †*-ways* ; *lengthways, -wise* ; †*likeways* (obs.), *likewise* ; *longways, -wise* ; *noway, -ways, -wise* ; *otherways, -wise* ; *sideway, -ways, -wise* ; *straightway, -ways,* †*-wise* ; *sunway, -ways, -wise.*

4. The combinations of *-ways* are, unlike those of *-way*, hardly ever used as adjs., with the exception of SIDEWAYS.

Wayzgoose (wē'zgūs). [Alteration of Waygoose, under which the earliest evidence for the word is given.

The eccentrically spelt form *wayzgoose*, which, although established in recent use, has not been found, exc. in Bailey's Dictionary and Ash's, before 1875, is probably a figment invented in the interest of an etymological conjecture (see quot. 1733). Bailey's assertion that the word had the sense of 'stubble-goose' is unsupported, and is very unlikely; this allegation, and the accompanying fantastic misspelling of Wake, may have been suggested by the idea that the obscure word *waygoose* could be explained on the assumption that it had lost *n*. *s*. (The *King. Dial. Dict.* refers to Cope's *Hampshire Glossary* for '*noose-goose*, a stubble-goose', but Cope's authority for this is a MS. word-list which, he says, 'contained many words that are certainly not relative to the dialect of the county'.) It seems clear that the genuine traditional form among printers was *waygoose*, and that the form *wayzgoose*, now prevailing is a supposed correction following the authority of Bailey. The statement that goose was 'the principal dish' for even that it was eaten at all) at the 'waygoose' dinner is the only evidence. It is possible that *waygoose* may be a corruption by popular etymology of some earlier word, but no satisfactory explanation has been found either in English or in any Germanic language.

Originally, an entertainment given by a master-printer to his workmen 'about Bartholomew-tide' (24 August), marking the beginning of the season of working by candle-light. In later use, an annual festivity held in summer by the employees of a printing establishment, consisting of a dinner and (usually) an excursion into the country.

1733 Bailey *Dict.* (ed. 3), Waygoose, a Parcel of Straw. *Waygoose*, a Stubble-Goose, an Entertainment given to Journeymen at the beginning of Winter. [1833 Temperley *Songs of the Press* 23 *note*, Way Goose.] The etymology of this term is not generally known. It is from the old English word *waye*, stubble. A waye Goose was the head dish at the annual feast of the forefathers of our fraternity, '*Wayes Goose*', as the printers call it, an entertainment given to journeymen at the beginning of Winter.'—Bailey.]

1875 Southward *Dict. Typogr.* 117 The wayzgoose generally consists of a visit to the country, open-air amusements, a good dinner, and speeches and toasts afterwards. 1892 *Surrey Mirror* 23 Aug. 2/3 The members of the typographical staff of the *Surrey Advertiser* (Guildford) and the *Surrey Mirror* (Redhill) had their wayzgoose on Saturday last, when they journeyed to Brighton.

Du. *wij*), OHG. *wir*, *wer*, *wier* (MHG. *wir*, mod.G. *wir*), ON. *vér*, *vær* (Sw., Da. *vi*), Goth. *weis*.

These forms seem to go back to more than one OTeut. type. The Gothic form represents OTeut. **wiz*-:-*wiz*-Teut. **weiz*, an extension (with nominative suffix -*z*) of Indogerm. nasalic **wei* found in Skt. *vayám*, Avestic *vaēm*, *vaēn*. With regard to the OE., ON., and some other forms, there is difference of opinion, some scholars referring them to an ablaut-variant of Indogerm. **nĕ*, or **nō*, as of **nĕ-s*, and others to a pre-Teut. **wĕ* of which **wei* is supposed to be an extension by the addition of a demonstrative particle.]

[a. ON. *veik-r*, corresponding to OE. *wāc* : see Woke *a.*

The earliest known examples are in the *Cursor Mundi* (*a* 1300, but MSS. 14th c.); the word gradually took the place of the corresponding native adj. (OE. *wāc*, ME. Woke) which did not survive beyond the 15th c. There seems to have been some difference of meaning between ON. *veik-r* and ON. *veikr*: in OE. the primary Teut. sense 'yielding, not rigid or firm, pliant' was still prominent, while in ON. it had developed into the sense 'not strong'.

The β-forms show the same development of Swand, *ef* to *f* which is found in Berae *a.* (earlier *bleyke*, ON. *bleik-r*), Steak *sb.* (OE. *steċe, steyke*, ON. *steik*), still pron. dialectally with *f*), and Reak, var. of Rake *sb.*[3] (ON. *reik*).

In mod. dialect literature the word is often written *weath* or *weake*. Graphically, these forms belong to the *a* group; but in certain areas it may be doubtful whether the shade of pronunciation denoted by the spelling descends from ME. *e* or from ME. *ei*. As the normal Sc. representative of OE. *wāc* is *wauk*, which in late Scottish might have been written *waik*, it is possible that some of the Sc. examples given below belong etymologically to Woke *a.* rather than to the present word.

A. *adj.*

† **1.** Of a material thing: Pliant, flexible, readily bending. (Usually with implication of want of strength.) = Woke *a.* 1. *Obs.*

The recognition of this sense by Johnson (who has been followed by later Dicts.) is remarkable; his authority has not been inverifiable.

b. In the translations of the Bible from Tindale onward, used to render Gr. *ἀσθενής, ἀσθένεια*, applied by St. Paul (esp. in Rom. xiv and 1 Cor. viii) to believers whose scruples, though unsound, should be treated with tenderness, lest they should be led by the example of the more enlightened into acts condemned by their conscience. Hence allusively in *weaker brethren* (often supposed to be a scriptural phrase), applied to the more timorous members of a party, who are in danger of being shocked by extreme statements of principle or policy.

In the Wycliffite and other early versions the rendering is 'sick' (Vulg. *infirmus*).

4. *Economists.* A collective term for those things the abundant possession of which (by a person or a community) constitutes riches, or 'wealth' in the popular sense.

There has been much controversy among economists as to the precise extent of meaning in which the term should be used. The definition that has been most widely accepted is that of Mill (quot. 1848 below).

1841 Torrens *Exx. Produce Wealth* i. 3 When we say, a man of wealth, the term implies quantity, and signifies an abundance of the comforts and luxuries of life. But when we say, again, silver is a source of wealth, the necessary idea of quantity is not implied, and the term comprises the products of ages alone, whether they be raised from one acre or from a million; whether they are capable of subsisting an individual, or a nation. 1885 Bentham *Fortion. Reward* 237 All wealth is either the spontaneous production of the earth, or the result of labour, employed in the cultivation of the earth or upon the materials which it yields. 1832 Hr. Martineau *Life in Wilds* ii. 23 Whatever lives, or grows, or can be produced, that is necessary or useful, or agreeable to mankind, is wealth. 1848 Mill *Pol. Econ.* I. Prel. Rem. 8 Money, being the instrument of an important public and private purpose, is rightly regarded as wealth; but everything else which bears a money price, and which in its nature does not afford gratuitously, is wealth also. *Ibid.* 9 To an individual, anything is wealth, which, though useless in itself, enables him to obtain others a part of their stock of things useful or pleasant. Take for instance, a mortgage of a thousand pounds on a landed estate. This is wealth to the person to whom it brings in a revenue... But it is not wealth to the country; if the engagement were annulled, the country would be neither poorer nor richer. *Ibid.* 10 Wealth, then, may be defined, all useful and agreeable things which possess exchangeable value; or in other words, all useful or agreeable things except those which can be obtained, in the quantity desired, without labour or sacrifice. 1856 Prof. de Hut. *Eng.* (1858) I. I. 87 An attempt...was made to bring the production and distribution of wealth under the mural rule of right and wrong. 1871 Jevons *Theory Pol. Econ.* i. ii. 71 The wealth of any individual is considered to include all useful things—whether material things, as food, clothes, houses, &c., or immaterial things as debts, patents, copyrights, &c.—which...can be of being sold at a certain price. This aggregate is suitably measured by its exchange value; the common standard of value, money, being taken for convenience' sake. 1891 Shaw-Lefevre *Addr. Cities* xv. 104 The Companies Acts have not, and will not, create wealth: it is not the function of law to create wealth... only to regulate its distribution. Wealth is created ...by labour. 1900 A. W. Kirkaldy *Wealth* 15 If this definition [Mill's] be accepted, the importance of abundance disappears. Wealth may be small as well as large in a big thing. A single pin, has exchange value, it is useful, and is therefore wealth...No is a motor-car or a fine yacht or an Atlantic liner.

5. Plenty, abundance, profusion (*of* what is specified). Also, the condition of abounding *in* something valuable.

1596 Dalrymple tr. *Leslie's Hist. Scot.* (S.T.S.) I. 42 The firth...plain gret wealth of Salmonis. 1618 Scott *Cald Maxit.* xxxii, And they be wealth of feid, that's the thing could, for lurtes a raw hide that has been about the hurdies o' a scant-nel half an hour since. 1850 Tenny *on Tu Mem. Note-bks.* (1872) I. 48 This wealth of silver, gold, and gems, that adorned the shrines of the saints. 1874 Smyth *Mediterranean* xxiii. The island's fold wealth of articulate speech. 1888 Rhys *Celtic Brit.* i. 21 There is no reason, however, to suppose that the great wealth of the country in tin could be had discovered by Cæsar's time. 1894 Conan Doyle *Mem. Weat(e, obs. forms of Wate 9 †, Wet.

1557 N. T. (Geneva) *2 Thess.* iii. 5 The Lord guyde your hearts to the loue of God, and the waiting for of Christ.

Weather (we·ðəɹ), *sb.* Forms: 1 **weder**, 2 **wæder**, 2–5 **weder**, 4 *Sc.* **vedir**, **weddire**, **wedyre**, 4–5 **wedire**, **wedire**, **wedur**, **wedyr**, **whedir**, 5 *Sc.* **weddre**, *-ir*, *-yr*, **wedere**, **wedyre**, **whedere**, **whed(d)yr**, 6 **weddur**, **wedor**, *Sc.* **wad-der**, (**weddir**), **wodder**, *-ir*, **wodor**, (**vodder**); 5 **wethyr**, 5–7 **wether**, 5–6 **whether**, 6, 9 *Sc.* **wathir**, (6 **vedthir**), 6– **weather**. [Com. Teut. (not recorded in Gothic): OE. *weder* neut., OFris. *weder*, *wether* (NFris. *weddher*, WFris. *waer*, *war*), OS. *wedar* weather, storm, Du. *weder*, *weer*, OHG. *wetar* (MHG. *weter*, mod.G. *wetter*), ON. *veðr* (Sw. *väder*, Da. *vejr*).–OTeut. **wedro-m*. It is uncertain whether the pre-Teut. form was **wedhro-n* (= OSl. *vedro*, Russian ведро good weather, *vedrá* adj., fair, said of weather; cogn. w. Lith. *vidras*, *vydra*, storm, *audra* storm, flood) or **wetrd-m* (ablaut-var. of Lith. *vėtra* storm, OSl. *vętrŭ* air, wind); on either alternative the word is prob. f. the Indogermanic root **wā* to blow (see Wind *sb.*1) + suffix *dhro-* or *tro-*.

The spelling *with th* instead of the earlier *d* first occurs in the 15th c. (though the pronunciation which it indicates may well be much older); before the end of the 16th c. it had become universal. In several dialects, chiefly SC. and Ir., the pronunciation with (d) still survives. See Tit 6, and the note s. v. Father *sb.*

The nautical use of wind, direction of the wind (see senses 3, 8) is probably derived from ON. *veðr*.]

1. The condition of the atmosphere (at a given place and time) with respect to heat or cold, quantity of sunshine, presence or absence of rain, hail, snow, thunder, fog, etc., violence or gentleness of the winds. Also, the condition of the atmosphere regarded as subject to vicissitudes.

Wedge (wedj), *sb.* Forms: 1 **wæcg**, **weog**, **wegge**, (4 **weeg**), 4–7 **wegge**, (5 **vegge**, **weggge**, **weggbe**), 5–6 **weg**(**e**, 5–7 **wagge**, 6 **wadge**, **wegg**, 7 **wedg**, 3– **wedge**. Pl. 6 **wedgies**, *Sc.* **wagis**. [Com. Teut. (not found in Gothic): OE. *wecg* masc. corresponds to OS. *weggi* wedge (MLG. *wegge*, *wigge*, LG. *wegge* wedge, wedge-shaped cake), MDu. *wegge*, *wigge* (mod.Du. *wegge* fem., wedge-shaped cake, *wig* fem., wedge), OHG. *weggi*, *wecki*, wedge (MHG. *wegge*, *wecke*, wedge, wedge-shaped cake; mod.G. dial. *weck*, *wecken* masc., wedge, wedge-shaped cake), ON. *vegg-r* wedge (Norw. *vegg*, Da. *vægge*, MSw. *vägge*, *vigge*, Sw. *vigg*, *vägge*) :—OTeut. **wagjo-z*.

The affinities of the word are somewhat uncertain. Some scholars regard it as cognate with OHG. *wuganso* (see *wegeuse* in Grimm *D. Wb.*), ON., Norw. *vangeir*, Gr. ὄκνος (Hesychius) ploughshare, OPrussian *wagnis* axe, Lith. *vagìs* pin, plug, f. Indogermanic root **vogh*-. (Teut. **wag-*) : cf. Skt. *vah-* to carry.

The I.E. and Du. form with *f* for *c* (whence perh. the Sw. form and the Eng. *wig* sb.), a kind of cake) is not easy to account for. It may be due to a special sound-change in some local dialect; the hypothesis that it represents an ablaut-variant of Teut. **wegjan-z* is inadmissible.

1. A piece of wood, metal, or other hard material, thick at one end and tapering to a thin edge at the other; chiefly used as a tool operated by percussion (or, less frequently, pressure) applied to the thick end, for splitting wood, stone, etc., forcing apart contiguous objects, dilating a fissure or cavity, tightening or securing some part of a structure, raising a heavy body, and other similar purposes. Hence, in *Mechanics*, the type of simple machine of which the wedge proper is an example, and which includes also knives, chisels, and cutting and piercing instruments in general; formerly reckoned separately among the 'mechanical powers', but now regarded as a variety of the inclined plane.

1 To manifest the combination of bodily symptoms (instinctive cries or moans, sobs, and shedding of tears) which is the natural, audible, and visible expression of painful (and sometimes of intensely pleasurable) emotion, also, and in mod use chiefly, to shed tears (more or less silently)

In mod English somewhat rare in non literary use, being superseded by *cry* recently a sense of the inappropriateness of that verb as applied to silent manifestations seems to have in some degree revived the colloquial currency of *weep* in the sense 'to shed tears'

Weeping Cross.

1. A place-name occurring in several English counties, presumably indicating the site of a stone cross (now destroyed) formerly known by this designation.

The present Ordnance Map shows places so named (1) about 2 miles S.E. of Stone (Staffs.); (2) about 2 miles S.E. of Stafford: (3) about 2 miles S.E. of Banbury; (4) near Bury St. Edmunds (see quot. *a* 1500); (5) near Ludlow. See also quot. 1893. All the places refer to cross-roads. It is said that the remains of the 'weeping cross' near Banbury were removed in 1803 (Beesley *Hist. Banbury*, 1841); with reference to that near Ludlow cf. quot. 1826. It is usually assumed that the name implies that acts of devotion at these crosses were enjoined upon penitents, but there appears to be no evidence of this. Pennant's explanation (quot. 1782) seems to be merely a conjecture; another conjecture (Beesley *Hist. Banbury*) is that the cross marked the place at which bodies carried to interment were set down for the bearers to rest.

a 1300 in *Fasti Anglian* (1857-8) II. 226 (Bury St. Edmunds) Fulda incipit justa riperam apud Winothes, et pro-cedit ita ultetius ascendendo versus Austrum usque ad Crucem Lacrymantem [*Weeping Cross*] *Britannoia* (1698) 68 At 24 come to Weeping-Cross a noted Place, where 4 Ways meet,...and at 27 enter Banbury. 1782 PENNANT *Tours, from Chester* II. 180 (leaving the town (Stafford) crossed the Wolverhampton Navigation at Radford Bridge...A little further is Weeping Cross; so stiled from its vicinity to the antient place of execution. 1826 T. WRIGHT *Hist. Ludlow* (ed. 2) 275 Passing along the road which leaves the town at the bottom of Hulgate Fee, we come to a small tump or mount on the right, which marks the boundary of the parish. The name of the 'Weeping Cross', yet retained by this land mark serves to preserve the tradi-tionary record of a Cross. 1893 *Dublin Rev.* July 557 There is a road outside Salisbury called 'King John's Lane', leading from Clarendon to Old Sarum; it is crossed by another road, and at this point there is a clump of elm-trees. These trees are known as the 'weeping cross trees.'

2. Used allusively, esp. in the proverbial phrase *To come home by Weeping Cross*, to suffer grievous disappointment or failure.

From the middle of the 16th c., if not earlier, the form *weet* seems to be obsolete in ordinary speech, but down to the second decade of the 17th c. it was frequent as a literary archaism (chiefly *poet.*), as attributed in the drama to rustic speakers, and as a variant of *wit* in the phrases *to do or gyve* (a person) *to wit*, (*that is*) *to wit*. The archaistic use in the 16th and early 17th c. was confined to the inf., the plural present, and the present participle; but the poets of the 18th c. and later, who have used the word in imitation of Spenser, have often treated it as a regular verb, with 3 sing. pres. *I weet*, and inflexions *weets*, *weeted*.

Teut. strong verb: OE. *wegan* (*wæg*, *wægon*, *wegen*) corresponds to OFris. *wega*, *wein* to move, weigh, OSax. *wegan* to weigh, (M.)Du. *wegen* to weigh, OHG. *wegan* to move, shake, weigh (MHG. *wegen*; mod.G. has *bewegen* to move, while the simple verb is represented by the two verbs *wägen* trans., to weigh, *wiegen* intr., to weigh, be of a certain weight), ON. *vega* to lift, weigh (Sw. *väga*, Da. *veie*, to weigh), Goth. *ga-wigan* (only Luke vi. 38 in pa. pple. fem. *gawigana* shaken). The Teut. root **weg-*, **wag-*, **wig-* (for words representing the several grades see WAY *sb.*; WAG *v.*, WAGON, WAIN, WAW *sb.*1 and *v.*1; WEIGH *sb.*1, WEY) is:—Indogermanic **weȝh-*, **wogh-*, **wigh-*, found in Skr. *vah*, L. *vehere* to carry, Gr. *ὀχος* a chariot.
The remarkably early appearance of the weak conjugation was prob. due to confusion with WEIGH *v.*2; the two OE. verbs *wegan* and *wecgan* coincided in the form *wegð* of the 3rd sing. pres. (though the former verb had also the more normal *wigeð*, *wihð*). The strong inflexion of the pa. t. died out in the 14th century, and that of the pa. pple. in the 15th.]

The word is common in OE but wanting in ME until *c* 1300, and then occurs chiefly in northern texts, though employed also by Chaucer, Gower, and Langland The normal later and modern form would have been *weird*, and the substitution of *weird, wird* (which is natural in south eastern MS.) is difficult to account for in the northern dialects. In senses now current the word is either Scottish or archaic (chiefly under the influence of Scottish writers)]

[Originally an attrib. use of prec. in *weird sisters* (see sense 1), the later currency and adjectival use being derived from the occurrence of this in the story of Macbeth.

The evolution of the forms found in Shakspere's *Macbeth* was as follows: "*Weyrd sisters*" (retained in Acts III and IV in the First Folio) and *weyward* (used in Acts I and II); the latter was no doubt due to association with *weyward*, a word used many times by Shakespeare. (The later folios retain the *weyward* spelling, and alter the other to this or to *wizard*.) In several passages the prosody clearly requires the word to be pronounced as two syllables; hence Theobald's use of the dieresis in his emendation *weird* (see quot. 1713 below), giving rise to the scansion of quot. 1755 in sense 2, and quot. 1800 in sense 4.)

A rare OE. *wolcne* wk. fem., is also represented in early ME.

The phonology of the ME. forms with *eo, e*, and *a* in the stem is irregular. It has been suggested that the *eo* and *a* are due to assimilation, but there is no obvious reason for the changes, and the explanation still leaves the forms with *a* unaccounted for. In a number of the early ME. instances it is difficult to decide whether the forms are to be taken as singular or plural.
